www.satsa.com

Dear Members and Stakeholders,

Thank you to those who attended today's webinar. We had over 400 people that joined the 1h30 session. To those who could not make today's webinar, or stay on for the entire webinar, we will be making available links to the recording for you to listen to in your own time.

Although the webinar has been concluded we still invite you to submit your questions by clicking [here](#). We are working through these and will continue to update our [FAQs](#) to have them answered.

Earlier today, we received confirmation through TBCSA regarding travellers in transit as follows:

- Travellers from high-risk countries who are on their way home will be allowed to transit through South Africa
- Travellers from high-risk countries who are transiting through South Africa to another destination (i.e. not on their way home) will not be allowed, even if they are not required to clear customs
- Travellers from medium- or non-risk countries who are transiting through a high-risk country (even if they don't clear customs) will not be allowed

Yours in tourism

Hannelie du Toit
